

EZ17-ATM AIT-2 Autoloader

Compact, affordable and easy to use: an ideal first step into automated AIT data storage

Supported applications: Network backup/restore, remote storage and automated archiving

- 350 GB native, 910 GB compressed*
- Data throughput of 21.6 GB/hr native, 56 GB/hr compressed*
- Affordable alternative to standalone tape drives
- User-friendly interface
- Reduces administrative overhead and provides the lowest possible cost of ownership
- 1 AIT-2 drive, 7 cartridges

FEATURES

Compact size

LCD with simple menu system

Easy to operate

Removable data cartridge magazine

ADVANTAGES

Fits on top of a server, on the desktop or in a 19-inch rack (up to 2 units side by side)

Easy to use

Dedicated IS administrator not required

Easy to use

BENEFITS

Allows for easy integration and maximized use of space

Makes drive and media status clear; easy to configure & operate

Reduces cost of ownership

Facilitates offline storage and media management

The Exabyte EZ17-ATM AIT-2 autoloader is an ideal first step into automated data storage. For tape drive users who are ready to move up to higher capacity and performance, the EZ17-A offers unattended access up to 910 GB of data at a rate of up to 56 GB per hour (compressed). Easy to operate and compatible with all major software applications, the Exabyte autoloader is also cost-effective. At nearly 1/4 the cost per GB of a standalone AIT-2 drive, the EZ17-A provides reliable unattended backup with the lowest possible total cost of ownership.

This compact, affordable storage solution accommodates one AIT-2 drive and seven data cartridges in a removable magazine to facilitate offline storage. The EZ17-A occupies less than one cubic foot of space, fitting neatly on a desktop or server. Like all Exabyte autoloaders and libraries, the EZ17-A is rack-mountable: two units can be mounted side by side in a standard 19-inch rack. World-renowned Exabyte robotics automate backup procedures, eliminate operator error and dramatically cut data management costs.

* Compressed specifications assume a 2.6:1 compression ratio. Compression, capacity and throughput will vary depending upon type of data and system configuration. All specifications are subject to change without notice.

The Exabyte EZ17-A autoloader includes one AIT-2 drive, robotics and enclosure, power cord, SCSI cable, SCSI terminator, one 230m AIT data cartridge, data cartridge magazine, installation and operation manual.

EZ17-A Configurations	Exabyte Part #
EZ17-A LVDK, 1 AIT-2 drive	270011-1489
EZ17-A Options	Exabyte Part #
EZ17-A Rack Mount Kit (rack mount kit mounts two EZ17-As in a 19-inch rack.)	1003036
EZ17-A Exapak	00541

Media Compatibility

The EZ17-A autoloader is compatible with 230m AIT-2 media. The autoloader can accommodate up to seven data cartridges.

Tape Drive Integration

The EZ17-A autoloader is configured with one AIT-2 tape drive.

Exabyte EZ17-A

Technical Specifications

Capacity

350 GB, native
910 GB, compressed*

Data Transfer Rate

21.6 GB/hr, native
56 GB/hr, compressed*

Cartridge Access Time

< 10 seconds

SCSI Interface

SCSI-2 Ultra Wide LVD

Reliability

Robotics: MCBF>500,000
Drive MTBF: As specified by Sony

Environment

Operating temperature:
5° C to 35° C (41° F to 95° F)
Nonoperating temperature:
-10° C to 60° C
(14° F to 140° F)

Relative humidity, noncondensing,
operating: 20% to 80%

Power

100 to 240 VAC, 50 to 60 Hz
Auto-switching power supply
22 watts minimum
37 watts maximum

Dimensions (HxWxD)

8.4 x 8.3 x 18.2 inches
21.3 x 21.1 x 46.2 cm
Rack height = 5U

Shipping package

14.8 x 14.4 x 30.4 inches
37.5 x 36.5 x 77.2 cm

Weight

20.5 lbs.
9.3 kgs
Shipping weight: 30 lbs., 13.6 kgs.

Media

230m AIT-2 data cartridges
Media is also available in ExapakTM
– data cartridge magazines
preloaded with appropriate
Exabyte tapes.

Agency Certifications

UL, CSA, FCC, CISPR, IEC

Warranty

Three-year limited warranty
On-site service options available

Software Compatibility
